# International Workshop on ” Recent Developments in Hadron Physics”

**\*\*\* This is a workshop organized by graduate students \*\*\***

Date: August 2<sup>nd</sup>, 2010 (Monday)

Time: 10:00 - 16:00

Place: Room H-345, Honkan, Ohokayama Campus, Tokyo Tech

### Program:

Chairperson: S. Miyasaka

10:00–10:55 **“E-906/SeaQuest Experiment: Accessing the Flavour Asymmetry of the Nucleon–Sea by Drell–Yan Process”**

F. Sanftl (Tokyo Tech), 30 min. talk + 25 min. discussion

Chairperson: F. Sanftl

10:55–11:50 **“Recent Developments in Lattice QCD Calculations at Finite Temperature”**

A. Rothkopf (Tokyo University), 30 min. talk + 25 min. discussion

11:50–12:50 Lunch break

Chairperson: N. Kobayashi

12:50–13:45 **“Belle Experiment: Introduction and Fragmentation Function Analysis”**

R. Seidl (RIKEN), 40 min. talk + 15 min. discussion

13:45–14:35 **“Overview of Exotic Hadrons”**

M. Uchida (Tokyo Tech), 30 min. talk + 20 min. discussion

Chairperson: P. Gubler

14:35–15:30 **“Heavy Quark Molecules and Molecular Options for Exotic Mesons”**

Y.-R. Liu (Tokyo Tech), 30 min. Talk + 25 min. discussion
